

SUMMARY

Data Storyteller with 4 years of relevant experience in data analytics, statistical problem-solving, and executive reporting across financial services and alternative asset management. Skilled in SQL, Python, Power BI and Excel for large-scale data analysis, hypothesis testing, and root-cause investigation of metric anomalies. Proven ability to design success metrics, project planning & implementation, and performance tracking frameworks, partner with cross-functional stakeholders, and translate complex statistical analysis into clear, actionable narratives for executive leadership — driving measurable business impact across \$87B+ AUM portfolios and 5 Hedge Fund global clients.

WORK EXPERIENCE

Senior Data Associate | Indus Valley Partners, Noida | April 2025 - Present

Promoted after 2.5 years of consistent delivery and performance to Senior Data Associate role, with 6 Data Associates reporting under me and working across implementation projects

- Data Consulting & Automation:** Delivered a 15% gain in operational efficiency and saved 200+ man-hours annually, as measured by reduced manual reporting workload, by orchestrating data-driven consulting for global hedge funds and automating end-to-end reporting workflows and data pipelines using SQL, Python, and the Enterprise Data Management system.
- Experiment Design & Solution Validation:** Validated a new AI-powered analytics solution before company-wide rollout, as measured by successful adoption at proof-of-concept stage, by piloting the Portfolio Monitoring chatbot with one client and aligning NY-based stakeholders with the internal product team.
- Validation automation Initiative:** Reduced manual testing effort to 10% of prior levels, as measured by elimination of manual sanity and UI checks, by partnering with the product team to redesign the post-migration validation process around automated alert monitoring and targeted error resolution.
- ESG Strategy & Consultative Insight Generation:** Pioneered ESG Policy Trend Analysis framework, translating regulatory complexity into actionable insights for Portfolio Managers; leveraged as a key asset in client pitches.
- Team Leadership & Delivery Excellence:** Led a 6-member analyst team across concurrent global mandates; owned resource allocation, project assignments, and weekly performance reviews — improving delivery accuracy by 15% through consultative problem-solving.

Data Associate | Indus Valley Partners, Noida | October 2022 - March 2025

- Data Collection & Synthesis from Disparate Sources:** Owned and delivered a full-cycle MDM implementation as Project Owner for IVP's Enterprise Data Dictionary; established metadata management, taxonomy modeling, data lineage, ownership, and validation standards across fragmented enterprise datasets — reducing production bugs by 25% from 54%, and improving data trust across a multiple hedge fund clients.
- Data Integration & Architecture:** Designed and implemented scalable data governance frameworks covering data lineage, domain classification, and master data standards across financial, portfolio, assets, and client data domains; bridged fragmented data ecosystems to create a unified, audit-ready data infrastructure. This became a standard across clients in the implementation team.
- Portfolio Analytics & Decision Support:** Delivered insights for \$87B+ AUM portfolios, across clients, by identifying key geographic and trading patterns through data mining and predictive modeling; enabled C-suite decision-making via clear business narratives
- Business Intelligence & Reporting Strategy:** Designed and governed Power BI dashboards tracking portfolio KPIs; automated reporting for 10+ hedge fund clients, reducing manual effort by 15% and enhancing stakeholder accessibility
- Business Analysis & Architecture:** Authored BRDs, FRDs, and Target Operating Models (TOM); bridged business and engineering teams to ensure seamless delivery of multi-million-dollar initiatives
- Cross-functional Stakeholder Partnership:** Partnered with business analysts, data engineers, consultants and upper management stakeholders to build and maintain scalable reporting and data pipeline solutions; automated reporting workflows to deliver all successful customer projects.

BUSINESS MANAGER | ETEHAS, GURUGRAM | NOV 2020 - MAY 2022

- Entrepreneurial Leadership:** Orchestrated end-to-end business operations in an unstructured, high-growth startup environment; pivoted strategy during COVID restrictions to drive a 22% increase in sales.
- Proactive Problem Solving:** Managed the full lifecycle of retail pop-up stores—from location scouting in Gurugram/Ghaziabad to lead generation—demonstrating a "knack for doing things" without a predefined playbook.
- Data-Driven Market Research:** Analyzed customer segments and manufacturing workflows to optimize supply chains, directly supporting B2B deals and promotional campaign development.

BUSINESS DEVELOPMENT EXECUTIVE | ACPL SYSTEMS PVT. LTD., GURUGRAM | JUNE 2019 - MAR 2020

- Generated leads and expanded customer interests by 10% through targeted outreach.
- Managed accounts end-to-end, maintaining the CRM cycle and sales funnel to strengthen 17 client relationships.
- Engaged IT leaders for panel discussions, webinars, and online programs, increasing audience reach by 3x.

EDUCATION

Blended MBA in Business Analytics and AI, IIM Ahmedabad
Bachelor of Technology, Amity University, Noida

Mar' 2025 - ongoing
2015 - 2019 | 7.56 CGPA

SKILLS

- Technical Skills:** Advanced SQL (SSMS, Google BigQuery), Power BI, Python(Pandas, NumPy, scikit-learn), Excel, Data Mining, Data Pipeline Design, ETL, Data Governance, MDM, Dashboard Development, Agile tool (monday.com, clickup)
- Analytics:** Business Analysis, Data Consulting, Statistical Problem-Solving, Hypothesis Testing, Root Cause Analysis, Experimental Design, Regression, Time-Series Forecasting, Predictive Modelling, Classification, Segmentation, Clustering
- Business:** BRD/FRD/TOM, Requirement Gathering, Stakeholder Management, Client Engagement, Process Mapping, Root Cause Analysis, Gap Analysis, UAT Coordination, Change Management, Data Governance, Product Roadmap (MVP)
- Leadership:** Team Management, Cross team collaboration, Agile/Scrum, Project Planning and Delivery
- Domain:** Alternative Asset Management, Hedge Funds, ESG (SFDR/SASB), FinTech, Regulatory Reporting, AI Product Strategy
- Communication:** Executive Reporting, Data Storytelling, Cross-functional Collaboration, Presentation Skills
